

# 10TH INTERNATIONAL CONFERENCE ON INDUSTRIAL ECOLOGY

## Notice

On behalf of the Organizing Committee, it is our great pleasure and honor to invite you to attend the 10th International Conference of the International Society for Industrial Ecology, to be held at the Tsinghua University, Beijing, China, from July 7 to 11, 2019.

The conference theme is "Industrial Ecology for Eco-civilization". To make industrial civilization transform into eco-civilization, we need concept breaking, theoretical innovation, methodological support, and tools development. Triggered by the seminal article 30 years ago, luckily, industrial ecology has bred dozens of toolboxes, including social-economic metabolism, eco-industrial development, life cycle assessment, environmental input-output analysis, complex systems modeling, etc. We hope that you would continue to bring brilliant ideas, best work and profound enthusiasm to the conference, and make ISIE2019 another big success to promote the use of industrial ecology in research, education, policy, community development, and industrial practices.

China is experiencing a great transition from an agriculture-dominated country to the world plant with the largest scale and richness. More recently, Beijing, the capital of China, witnessed a significant improvement in air quality. All these make China to be the best touchstone for examining the achievements of industrial ecology. Thus, you can enjoy the cultural relics with thousands of years under the blue sky and white cloud, including the Great Wall, the Forbidden City, the Summer Palace, etc.

We look forward to seeing you at Tsinghua University. You have a chance to network with the leading scholars of industrial ecology from around the world, to share and exchange cutting-edge ideas and work, to visit Chinese transitional metropolitan areas in the world.

Welcome to the 2019 ISIE Conference!

### 1. Conference organization

Organizer: ISIE

Contractor: Tsinghua University

Honor Chair: Qian Yi, Tsinghua University, China

Chair: Shi Lei, Tsinghua University, China

Co-Chair: Arnold Tukker, Leiden University, Netherlands

Matthew Eckelman, Northeastern University, US

Tsuyoshi Fujita, National Institute of Environmental Studies, Japan

Weiqliang Chen, Institute of Urban Environment, CAS, China

## 2. Conference date and venue

Conference date: July 7th-11th, 2019

Conference Venue: Tsinghua University, Beijing, China

## 3. Program

Pre-conference Meetings (July 7th, 2019)

Conference Program and Presentation Schedule (July 8th-11th, 2019)

## 4. Topics

Circular economy	Industrial ecology contributing to SDGs 2030
Complex theories and tools for industrial ecology	Industrial ecology management and policy
Corporate sustainability reporting	Industrial symbiosis, eco-industrial parks
Eco-civilization	Life cycle assessment, design, and management
Eco-innovation	Open science for sustainability
Energy-water-food-waste nexus	Resource productivity and sustainability
Environmental input-output analysis	Social-economic metabolism
Environmental footprints	Social dimensions of industrial ecology
Green supply chain	Sustainable production and consumption
Integrated models	Urban sustainability

## 5. Register Fee

	Early	Standard	On Site
Regular	\$700/¥4700	\$800/¥5400	¥5400
ISIE Member	\$600/¥4000	\$700/¥4700	¥4700
Student	\$500/¥3300	\$600/¥4000	¥4000
Student of ISIE Member	\$400/¥2700	\$500/¥3300	¥3300
One day rate	\$300/¥2000	\$400/¥2700	¥2700
Banquet	\$80/¥500	\$80/¥500	¥500

Note: Register fee includes lunch, excluding transportation and accommodation.
